of your heart with one of our soft, faire engagement tokens. That will hold her if anything will. If things have not reached or have not gone beyond that stage adorn her with a brooch or a pretty necklace. When she knows you have bought the jewelry here she'll respect your good judgment as much as she will admire your good taste.

Speaking About Plumbing

We are certainly "in it." If you will engage us to equip and install

YOUR BATHROOM FIXTURES

You will undoubtedly be "in the swim" for many years to come. The comforts and conveniences of good plumbing are indeed a blessing, well worth the price, but the annoyances of poor plumbing can not be estimated. We do good plumbing.

ROCHESTER CAMP HAS

\$19,000 MONTHLY PAY ROLL

The Rochester Miner states that a census has just been completed of all the mines and leases in the Rochester district for the purpose of determining the income of the camp of men employed in the properties. The pay rolls show 146 men, which is outside of the miners engaged in doing location or annual work or developing their own prospects. The majority of the men are drawing down four dollars per day, none less than that amount. Some of them are getting five and the foremen and superintendents average considerably more. It is estimated that \$4,35 a day for 30 days in April is a conservative average. This means a disbursement for the month of \$19,053, which is most unique for a camp of tender years.

AMUSEMENTS

Socialist Lecture.

G. W. Boswell of Los Angeles, California, arrives in this city tomorrow to deliver the last lecture on the Socialist Lyceum course. He will speak tomorrow night on "The Socialist Movement."

When asked how he became a Socialist he replied that the experiences he had as a workingman, and a careful study of industrial, economic and social problems compelled him to believe in Socialism.

When he was asked if he thought Socialism would be established through a bloody revolution, he said: "I do not. The revolution we Socialists talk about began at the end of the eighteenth century, when machine production first came to take the place of hand production. The Socialists desire the social ownership of the great natural resources on which all are dependent, brought about peacefully at the ballot box."

If there is to be anything like the French revolution repeated, it will be caused by the capitalists who are trying to retain their power and profits."

Butler Theater.

At the Butler theater tonight will be shown a program of interesting pictures, as follows: "The Last Deed," an Edison drama; "Broncho Billy," an Essanay western drama; "Waffles Trees Moving Picture Acting," a Pathe comedy. This comedy is one of the greatest seen in a long while. "The Way Out," a Vitaphone comedy. As a member of the Bachelor's club, Dave has vowed he will never get married. Emma as a member of the Man Haters' club, has done the same thing. They meet, fall in love with each other and are in a quandary, until the land lady reminds Emma it is Leap Year, and she proposes to Dave. He accepts her. The many amusing situations incidental to the play make this comedy a constant kaleidoscope of humor simply delightful. Tomorrow the special of the week, "Pickwick's Papers," in two reels, featuring John Bunny.

CORPSE HAD VISITED A WARM LOCALITY

A doctor, according to the story, saw late one night, a fine automobile halted outside a cemetery. He hid behind a tree, for he suspected that body snatchers were at work; and sure enough, in a few minutes he saw two ugly characters stagger from the cemetery carrying a body. They placed it upright in the automobile as though it were alive, propping it securely in the back seat, and then fill the violated grave again. The doctor in their absence lifted the body out of the automobile, hid it under a hedge, and took its place himself. Soon the second pair returned. One seated himself at the wheel and the other fixed himself in the back seat beside the body to support it. After a while the man in the rear seat said in rather an awed tone: "This body seems mighty warm for a corpse." The chauffeur reached back his right hand and touched it. "Don't it though!" he muttered between perplexity and fear. Then the "corpse" in deep, sepulchral tones, exclaimed, "Warm? Of course I'm warm. And if you had been where I've been for the last two days you'd be warm too!" With loud yells of horror the body snatchers leaped from the automobile and fled. The doctor seized the wheel and drove it home. He has it, they say, still—Exchange.
